

## **Saddayah Biography**

Saddayah's music is rooted in traditional death metal, but the band's serious technical abilities rose to a fresh, melodic and technical type of death metal with progressive and blackened influences.

Formed in late 2013 by Gabriel Marincu and Theo Ionescu, the band had its live debut in 2014 and released the debut album, 'Apopheny of Life', on 7/9/2018, via Loud Rage Music.

The band toured all over Romania, gaining a loyal and steady fanbase, and after signing with LRM, starting to hit the european public as well, having a few concerts in Greece, Slovenia, Croatia, Bulgaria.

The name of the band is inspired by a javanese word "sayah", that means "psychosis" and stylised so that it looks more like a certain band. Try to guess which band and give us a shout out if you think you got it. (Hint, they're Swedish).
